PROFILE SUMMARY

Indie iOS Developer with 16 years of software development experience, specializing in iOS apps using Objective-C, C/C++, Swift/SwiftUI, and Python. Proven success in creating top-ranking photo and video editing apps, including an App Store-featured app that ranked 1st. Skilled in the entire development lifecycle and dedicated to delivering cutting-edge computer vision and AI-driven solutions.

SKILLS

- Advanced proficiency in Objective-C, C/C++, and Swift/SwiftUI for high-performance iOS application development.
- Specialized in image and video processing algorithms, emphasizing AI-driven solutions using Python and PyTorch.
- Expertise in iOS Metal and OpenGL for efficient 2D/3D graphics processing.
- Extensive experience in designing, training, and deploying AI models for computer vision applications.
- Knowledgeable in JavaScript, with the ability to build REST APIs based on CloudFlare.

LANGUAGES

- Proficient in reading English research papers and technical documentation, and effective in communication in English.
- Japanese: Currently learning

EXPERIENCE

Indie iOS Developer

June 2018 - Present

Independently develop and release high-impact iOS apps with a focus on image and video editing, and AI-driven photo enhancement solutions.

Achievements include:

-
- **Fine - Photo Editor:** Achieved "Best App of July 2018" in the Chinese App Store and featured globally, leading to significant user adoption and engagement.

[App Store Story 1](#) | [App Store Story 2](#) | [App Link](#)

- **PixelSense:** An advanced photo editing app with robust support for RAW photo editing. [App Link](#)
- **Retake:** An AI-driven photo editing app with cutting-edge on-device capabilities for photo restoration, super-resolution, and cartoon-style image generation. [App Link](#)
- **PixelSense for iPad:** A tailored version of PixelSense, optimized for iPad to provide a seamless photo editing experience. [App Link](#)
- **Hollycool:** An innovative video editing app known for delivering a high-quality editing experience. [App Link](#)
- **Mue:** A versatile video editing app. [App Link](#)

Guangzhou Wecut Century Information Technology Co., Ltd., China

Co-Founder & CTO

September 2014 – June 2018

- Led the technical team in developing innovative mobile apps, focusing on image editing and social image-sharing platforms.
- Architected and implemented advanced image processing algorithms, contributing to the commercial success of the company's products.
- Independently developed the iOS versions of the apps during the company's early stages, utilizing Objective-C and OpenGL/C++ for cross-platform image processing.
- Secured Series A funding from Meitu, contributing to 30% growth in user base and driving the company's expansion into new markets.

Indie iOS Outsourcing Developer

March 2012 – September 2014

- Developed over 12 iOS apps for prominent clients, specializing in social media, e-commerce, multimedia, and mobile office systems, tailored to each project's specific needs.
- Managed client communications, delivering customized solutions that consistently exceeded expectations.

Guangzhou U6 Wireless Technology Co., Ltd., China

Symbian / iOS Software Engineer

October 2011 - March 2012

- Developed a social networking app for Symbian OS using C++.
- Developed the UI for an iOS social networking app using Objective-C.

Green Tomato Co., Ltd. Guangzhou Branch, China

Windows Mobile C++ Software Engineer

April 2010 - October 2011

- Developed Windows Mobile apps for social networking and travel guide services using C++.

Guangzhou WangWei Information Technology Co., Ltd., China

Windows/Linux C++ Software Engineer

March 2008 - April 2010

- Developed Windows desktop software and Linux servers using C/C++.
- Designed and implemented network software utilizing HTTP and Socket protocols.

EDUCATION

Guangdong University of Finance & Economics, China

Bachelor's Degree in Finance (Incomplete)

September 2004 - June 2008

PERSONAL STATEMENT

- As an indie iOS developer, I possess a strong technical background and innovative capabilities, allowing me to quickly respond to market demands and develop competitive products.
- As a full-stack developer, I can independently and efficiently create large, complex applications. With extensive project management experience and architectural design skills, I have developed expertise across multiple platforms and programming languages.
